

Dear colleagues,

Thanks to all of you who have registered for SEAC 2010 till now. We are very pleased to notice that many of the abstracts are covering the theme of conference “Astronomy and Power” and are looking forward to an interesting meeting. Letters which inform you about the acceptance of your abstract will be sent till May 1. **Colleagues who have not yet sent an abstract for SEAC 2010 get an additional chance to do so till May 12.** There are still some places available for further participants.

Online registration: All of you, who have sent their abstracts but not yet registered online, please register online now. The online registration transforms the data directly into our administration system and helps us to keep the records up to date. Participants from the US: Till now you could not register online, because we had forgotten the US in the list of the countries – sorry! Now it is added.

Post-conference excursion: Weather conditions have prevented us till now from clarifying some details of the full-day post-conference excursion. Now spring has come and we hope that we can give you the details of the program as well as the price of the post-conference excursion till early May.

Best regards,
Barbara and Michael Rappenglück
